

# Aayla Secura and Clone Troopers, v4

Creator: Scott Hagarty

This deck is for the exotic Twi'lek Jedi Knight, Aayla Secura. The deck is meant to represent her as she was during Episodes II and III, drawing on expanded universe research for character development. She is described as a cunning, undercover operative that relied on her intelligence and knowledge of the force to win battles rather than on sheer violence alone. Although she had formidable lightsaber skills, she rarely initiated attacks. As such, her deck is short on offense and attacks, but strong on discarding, movement and frequent direct damage, a staple of any manipulative character. When printing, I recommend printing directly onto cardstock. Turn the sheets over and print the card backs directly on the reverse side (they should line up). Be sure the size of the document in your PDF viewer is set to 100% to ensure proper margin alignment. Enjoy!
