

The Bible says in Genesis 1:27 that we were created in God's image. What does that mean and how are we created in God's image?

Well first of all, we have we have to understand that God is spirit (John 4:24) and Jesus said that a spirit does not have flesh and bone (Luke 24:39). So we know that God's image in not physical. So if He is not a physical image then how are we created like Him? If we are not created physically like Him then what would another option be? Our spiritual aspect, of course! So what would be some common ground that we share spiritually with God?

1. Eternal life – We will live forever
2. Rationality – We can think logically
3. Emotional – We can love, be happy, be jealous, be angry,
4. Relational – We can have close relationships with those around us
5. Dominion – We have the ability to rule

This is just a small sample of ideas. I'm sure there are plenty more that could be cited.
