

**I am a Christian because I believe in Jesus. The Bible says if you believe that you shall be saved.**

Yes, that is true. You do have to believe. But how do you know that you believe? Let me ask you a question. If you believed that 10 feet from you the earth was going to open up and swallow you what would you do? I'm willing to bet that you would change your actions and avoid that area at all costs. You would stay as far from that place as possible. You would even warn others not to walk there for fear of others dying. When you believe something it changes how you think, it changes your heart, and it also changes your actions. So let me ask you this. Has your belief changed your actions? Has your belief changed your life and the way you behave? So you see that believing is more than intellectually knowing something it is a whole change of heart, mind, and actions.

The Bible tells us that in order for us to see the kingdom of Heaven we must be born again (John 3:3).

The Bible also tells us that the old man is crucified with Christ.

Romans 6:6 "Knowing this, that our old man is crucified with him, that the body of sin might be destroyed, that henceforth we should not serve sin."
