

ST IVES CREATIVE ANNOUNCES RELOCATION

I am excited to inform you that our team of dedicated photographers, art directors, copywriters, photo studio staff, account managers, sales and management is joining forces with St Ives US Division Headquarters at

**2025 McKinley St., Hollywood, Florida 33020
Phone 954-920-7300**

While the move takes us only 20 minutes north of the Miami location, this consolidation strategy will have significant benefits in enabling us to serve each of you as well as future clients more efficiently and effectively.

After much planning our new home within the 220,000 square foot Hollywood plant has come to fruition featuring updated studios, streamlined production facilities and an even more seamless integration with St Ives prepress and press operations. Whether we handle production services, photography or total turnkey services for you, our long tradition and commitment to excellence will continue.

Our **production team** made the move **August 8th**.
The **photo studio** move is scheduled for **August 18th**.
This takes into consideration each of your schedules and ensures that we are settled in well before the hectic holiday season.

All of the main contact phone numbers for St Ives Creative will remain in effect (as well as the Hollywood number above), with new extensions being assigned to your team members. To receive a list of those new extensions simply contact your account manager or sales representative. Email addresses will not change.

Each of you will receive a notification from your account manager or sales representative with further details on our move but be assured that we will do everything in our power to complete a smooth transition into a new and improved facility. I am confident that this move will allow St Ives Creative to continue to grow and prosper with each of you - our partners.

If at any time you have specific questions please do not hesitate to contact me. I am always available to each of you.

David Neumann / Senior Vice President / Director Creative Services
