Starlifter.TV is all about bringing musical creativity from the collective unconscious into the conscious. The latest Starlifter.TV project is inspired by the 45, the Cassingle, and the CD single, glorious bursts of pop brilliance.

Digitape Singles will be regularly released online via Starlifter.TV and StarlifterRadio.com. For our first release we feature songs from Wundercastle and Flower.

Side A features a tune from Wundercastle aka Mark Holland from Christchurch outfit, Tiger Tones. He has remixed 'beautiful' which was originally written by Swiss producer Ghostape. Side B contains Christchurch Punk Rock history in the form of a live recording of 'beatrice' by Flower.

So that's the story! Enjoy the tunes and share the love...
