

Rob the Resource Guide.

If you are a Uniservy user you may find yourself spend far too much time creating Quizzes, Tasks, Surveys, Forums and blogs.

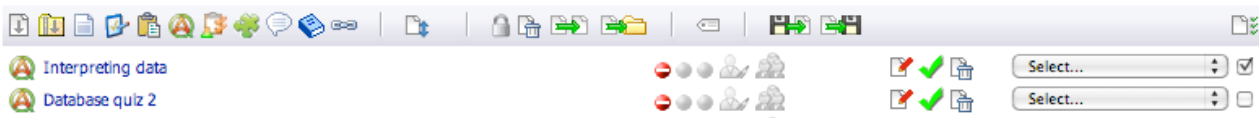

It is such a shame that schools don't share their resources with other schools.

Rob has been created as a forum for schools to share these precious resources, that are time consuming to create.

Sign-up to Rob and you will be able to download Quizzes, Tasks, Surveys, Forums and blogs that other schools have created.

We also encourage you, in the spirit of sharing to upload your own resources. If everyone gets involved we will be able to create the ultimate repository for Uniservy resources.

How to use Rob.

Select the resource you want to share.

Click on this icon from the tool bar at the top.

Export Options

You have selected to export one or more quizzes/surveys. Please select one of the following options:

Export Quiz/Survey Scores - This will export the responses associated with the quiz/survey but will not allow you to edit the quiz/survey.

Export Without Quiz/Survey Scores - This will allow you to edit the quiz/survey but will not include the associated quiz/survey responses.

Export your resource without quiz/survey scores, or marks etc.

Save the files to your computer.

Login to your Rob account and upload the URF file to Rob page. You will need to give it a title, description and choose a subject and Key Stage.

Using a resource from Rob.

Once you have downloaded the URF file from Rob you can import it in the desired area of your VLE by using the button shown below.
