At the bottom of the detention screen your current detentions are shown.

One function of this is as a teacher you can track who and when you have detentions, it also tells you if the admin department has sent the letters.

This gives you a few options:-

- A attended box
 - If you tick yes the detention disappears
 - If you tick no it will ask you to book another detention for the student.
- The ability to delete a detention, incase you made a mistake.
- A new date button, incase you need to change the date.

Viewing all schools current detentions

Clicking on current detentions will show all current detentions in the school. It will show all detentions set by every teacher.
